

Seclusion and Restraint Report

R.S. 17:416.21

December 2024

Background

R.S. 17:416.21 requires the Louisiana Department of Education (LDOE) to collect data on the use of seclusion and restraint for students with disabilities and produce an annual report that includes:

- the number of incidents of physical restraint disaggregated by school system; student age, race, ethnicity, gender, and disability classification;
- the number of incidents of seclusion disaggregated by school system; student age, race, ethnicity, gender, and disability classification; and
- a list of school systems that complied with the reporting requirements.

This report reflects data collected in the Special Education Reporting System (SER) and is specific to students with disabilities receiving special education services pursuant to the Individuals with Disabilities Education Act (IDEA). The LDOE instituted changes and expanded communication to improve seclusion and restraint data quality. The LDOE directly engages local education agencies (LEAs) in a data verification process to ensure data reflected in this report are valid and reliable. The LDOE also communicates reporting requirements of the law to LEAs through standard communication methods including newsletter announcements and webinars. All data reflect seclusion and restraint incidents that occurred during the 2023-2024 school year.

Results

During the 2023-2024 school year, 44 school systems submitted incidents of seclusion and restraint. These submissions include 1,153 incidents of seclusion and restraint involving 389 students with disabilities across the state. In total, 0.37% of the total population of students with disabilities were reported as involved in incidents of seclusion and restraint.

APPENDIX - SECLUSION/RESTRAINT TABLES

The following tables show seclusion/restraint data disaggregated by various variables and all seclusion and restraint policies submitted by school systems to the LDOE.

The LDOE has modified and/or suppressed data reported to protect the privacy of students in compliance with the Family Educational Rights and Privacy Act (FERPA) codified at 20 U.S.C. 1232g. The strategies used to protect privacy vary and may include rounding or other techniques but do not substantially affect the general usefulness of the data. Because of privacy protections, numerical and percentage totals may not add precisely to the sum of the row or column to which the total refers.
