

Principal Goal Setting ToolKit: K-8 Schools

Student learning is the most important success measure for teachers, schools, and districts. Maximizing student learning begins with setting meaningful goals for students through a thoughtful process that includes two main steps: Understand School Results and Reflect and Define Student Learning Expectations (Goals).

This scale is important to bear in mind when formulating SPS goals. Please see the table below to determine the letter grade scale being used for the current and future years through 2025. Letter grade scales for the new accountability system that will be implemented in 2025-2026 will be set using simulated grades to be released with 2025 school performance scores.

Step 1: UNDERSTAND SCHOOL RESULTS & REFLECT (End of year Conversations, Standardized Assessment Summary Reports, Assessment Data, Principal Report Card, 2022-2023 Scores)

- How have we performed in the past, and how does this compare to our peers?
- What do we know about how our students are progressing toward their goals?

| Are there certain grades and/or subjects needing more attention than others? Is there a student (e.g. special education, etc.) not making progress when compared to their peers? What student readiness information is available, and how does this inform our priorities and goals? | |

- What growth should we expect? How does this compare to past growth and that of our peers?
- What level of improvement in overall SPS reflects realistic expectations for student achievement?
- What levels of improvement in one or more components of SPS reflect realistic expectations for student achievement?
