2024-2025 School Support Institutes Learning

In previous years of SSI, there were separate pathways for Instructional Leadership Team (ILT), Teacher Collaboration, and Observation & Feedback.

In 2024-2025, there will be a single, integrated pathway: **Professional Learning Structures for Continuous Improvement.**

The pathway content will demonstrate how ILT, teacher collaboration, and observation and feedback should align and are all functions of an effective ILT.

Professional Learning Structures for Continuous Improvement Pathway Learning

Through this pathway, leadership teams will strengthen their skills in:

- utilizing relevant assessment data, student work, and observation data to identify current instructional needs.
- creating instructional goals and the supporting long-range plans.
- building teachers' instructional capacity through observation and feedback and goal-aligned teacher collaboration cycles.
- leveraging high-quality instructional materials (HQIM) and acceleration practices to ensure access to standards-aligned content for all students.

Overview of Sessions

Session 1 (September 2024, regional, ½ day in-person):

Utilize Data to Inform Goals and ILT Long-Range Plans

Session 2 (October 2024, regional, ½ day in-person):

Utilize Long-Range Plans to Inform Teacher Collaboration & Progress Monitoring

Session 3 (January/February 2025, regional, ½ day in-person):

Utilize Data to Progress Monitor Impact of Teacher Collaboration and Long-Range Plans

Asynchronous Session (March 2025):

Progress Monitoring Goals

Session 4 (during Teacher Leader Summit 2025):

Reflecting on Progress and Looking Ahead

Session 1 Pre-Work

In session 1, we will focus on utilizing **current** observation and student data to determine instructional needs.

In preparation for this work, each ILT needs to **bring baseline informal observation data gathered during the first weeks of the 2024-2025 school year.**

This data will be used during the internalization time to create/refine goals and guide planning for actions steps and progress monitoring.

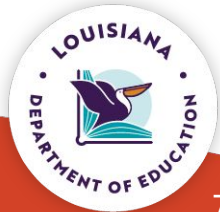

Classroom Walkthrough Considerations

- Determine each ILT member's walkthrough responsibilities
- Establish a protocol for recording walkthrough observations and feedback given
- Determine targeted “look-fors”

Classroom Walkthrough Considerations

- Possible walkthrough data examples:
 - Evidence of teacher content knowledge of standards and HQIM
 - Lesson content is aligned to the objectives of the HQIM
 - Percent of students engaged in multiple types of thinking
 - Student work samples aligned to the rigor of the standards
