

**BELIEVE & PREPARE  
COMMUNITY MEETING AGENDA**

**FEBRUARY 13, 2017**

Claiborne Building, Baton Rouge

**MEETING FOCUS**

**Forging strong preparation partnerships – How do they start? What do they really look like?**

A well-established teacher preparation program-school system partnership can improve teacher preparation programming while simultaneously improving K-12 education for all students and educators. When the teacher preparation program and K-12 systems are working together, these partnerships become incubators of improvement.

This session, led by U.S. PREP National Center, will focus on developing formal partnership agreements and governance meeting protocols.

**MEETING OUTCOMES**

Preparation provider leaders and their district partners will learn how to:

- Establish a formal partnership, including a memorandum of understanding (MOU) to guide partnerships
- Develop governance meeting protocols
- Plan for and facilitate governance meetings

**AGENDA**

*Participants will attend by region. See map for details.*
