

First, Are Students Learning? Using Data to Strengthen Preparation Experience

Do Now:

- Think about the current work you do in supporting teachers.
- How do you currently use student data in your support of teachers?

- What barriers are currently keeping you from using student data in your support of teachers?

Action Plan

Notes/Reflection	Next Steps
What data is available to me, and how can I use it?	
How will you use data in your support of new teachers?
