## Executive Summary

The 2014-2015 school year is the fourth year in which Louisiana has implemented the statewide use of *DIBELS Next* as a standard K–3 reading screener. *DIBELS Next* provides “composite” scores for all four grades. Comparing performance in Fall 2013 and Fall 2014, the percentage of students meeting the benchmark grew in all grades tested. Second grade had the highest percent of students meeting benchmark, whereas some level of intervention was most needed in kindergarten and third grade.

## Assessing Students' Reading Abilities Using *Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)*

The *Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)* is a set of standardized, individually administered measures for assessing the acquisition of early literacy skills from kindergarten through third grade. They are short (1 minute) fluency measures designed to regularly monitor the development of early literacy and early reading skills. The critical skills necessary for successful beginning reading include phonemic awareness, phonics, fluency, vocabulary, and comprehension. The DIBELS benchmarking assessment measures assess students on four of these five critical skills; all of the critical skills listed above except vocabulary. The DIBELS Next test provides teachers with information about students' reading and how well he or she is progressing on a particular early reading skill.

The results of the DIBELS Next assessment measure a student's level of skill based on benchmark goals. DIBELS benchmark goals are empirically derived, criterion-referenced target scores that represent adequate reading progress. A benchmark goal indicates a level of skill where the student is likely to achieve the next DIBELS benchmark goal and other important reading outcomes. Benchmark goals for DIBELS are based on research that examines the predictive validity of a score on a measure at a particular point in time compared to later DIBELS measures and external outcome assessments. If a student achieves a benchmark goal, then the odds are in favor of that student achieving later reading outcomes if the student receives research-based core classroom instruction; therefore the student would receive a score level of Core Support which indicates the student is at or above the benchmark goal. Students that score below benchmark are given a score level of Strategic Support and students that score well below benchmark are given a score level of Intensive Support. A student's scores on the DIBELS measures give the school information about whether or not a student is on track for grade-level reading success. A school can quickly identify students who do not meet the goals on each.

*DIBELS Next* results within this report are based on the specific assessments that were given to students in the 2014-2015 school year. The *DIBELS Next* composite score is computed based on the mix of skills expected of the student and adjusted for each assessment period and grade level. Figure 1 displays the distribution of students by performance level and grade for Fall 2014. Across the four grades (K-3), 62.4% of the 185,988 DIBELS-assessed Louisiana students were considered in Core (benchmark), 13.5% suggested a need for strategic support/intervention, and 24.1% suggested a need for intensive support/intervention. Second grade had the highest percent of students on core (benchmark), whereas some level of intervention was most needed in kindergarten and third grade.

Currently the Louisiana Department of Education’s goal of students entering kindergarten ready is based on the DIBELS Next scores. As indicated above the scores have increased from 55.2% to 55.6% from 2013 to 2014. Although Kindergarten readiness is improving, close to 50% of Louisiana’s children do not reach kindergarten ready to learn. Therefore, it is imperative to continue implementation of the early childhood education initiatives that are leading to better outcomes for our youngest learners.

### **Assessing Students’ Reading Abilities Using Alternate Reading Assessments**

The 2014–2015 school year is the second year in which Louisiana has allowed waivers to districts with sufficient cause for not implementing the statewide use of *DIBELS Next* as a standard K–3 reading screener. A review committee made up of assessment staff, district support staff, early literacy experts, and data staff considered applications from six districts and three charter schools, the following of which were approved for administering an alternate assessment in place of *DIBELS Next*:

- Jefferson Parish chose to use *Fountas and Pinnell Benchmark Assessment System* (Heinemann, 2010) as an alternate to DIBELS Next for grades K-3.
- Plaquemines Parish chose *Star Reading* (Renaissance Learning, 2011) for grade 3.
- Tangipahoa Parish chose *SRI Foundational Reading Assessment* (Scholastic, Inc., 2014) for grade 3.
- St. Martin Parish chose *i-Ready Diagnostic Assessment* (Curriculum Associates, 2013) for grade 3.
- RSD-ReNEW-Reinventing Education, Inc. chose *Strategic Teaching and Evaluation of Progress (STEP)* (University of Chicago, 2005) for grades K-2 and *STAR Reading* (Renaissance Learning, 2011) for grade 3.

- RSD-Knowledge is Power Program (KIPP) N.O. and RSD-FirstLine Schools, Inc. chose *Strategic Teaching and Evaluation of Progress (STEP)* (University of Chicago, 2005) for grades K-3.

## Reading Results for Districts and Schools

The data presented in Table 3 represent the Fall 2014 *DIBELS Next* results<sup>2</sup> at the district and school level. The composite score percentage on each benchmark by grade level is shown. There were 10 districts and schools with fewer than 10 reportable students per grade level; thus to protect the privacy of students, these results are not included. A list of those schools is presented in Table 4.

Data for districts and schools that administered an approved alternate assessment to *DIBELS Next* are presented in Tables 5-11.

<sup>2</sup>Data were downloaded from the DIBELS Next Data System on October 24, 2014.
