## Executive Summary

The 2014-2015 school year is the fifth school year in which Louisiana implemented the statewide use of *Dynamic Indicators of Basic Early Literacy Skills (DIBELS) Next* as a standardized reading screener for kindergarten through 3<sup>rd</sup> grade. *DIBELS Next* provides “composite” scores for all four grades.

Comparing performance in fall 2014 and fall 2015, the percentage of students meeting the benchmark increased in all grades tested. As in fall 2014, 2<sup>nd</sup> grade showed the highest percentage of students meeting benchmark (the *Core* level), whereas some level of intervention was most needed in kindergarten.

Twelve traditional school districts and three charter organizations were granted waivers from using *DIBELS Next* and therefore reported data from the alternate assessments that they utilized.

## ***Assessing Students' Reading Abilities Using Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)***

The *Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)* is a set of standardized, individually administered measures for assessing the acquisition of early literacy skills from Kindergarten through 3rd grade. These are brief fluency measures designed to regularly monitor the development of early literacy and early reading skills. The critical skills necessary for successful beginning reading include phonemic awareness, phonics, fluency, vocabulary, and comprehension. The *DIBELS Next* benchmarking assessment measures assess students on four of these five critical skills—all of the critical skills listed above other than vocabulary. The *DIBELS Next* test provides teachers with information about student reading and how well the student is progressing on a particular early reading skill.

The results of *DIBELS Next* are reported based on a student's level of skill attainment towards the benchmark goals. These empirically-derived benchmark goals are criterion-referenced target scores that represent adequate reading progress. They are based on research that examines the predictive validity of a score when compared to later *DIBELS Next* measures and external assessments. Consequently, attainment of a benchmark goal indicates a student is likely to achieve the next *DIBELS Next* benchmark goal in future *DIBELS Next* assessments and other important reading outcomes. As this pertains to the three overall achievement levels, it is likely that a student who receives a score level of Core Support, which indicates the student is at or above the benchmark goal, will later achieve satisfactory reading outcomes if the student receives research-based, core classroom instruction. Students that score below benchmark are given a score level of Strategic Support, and students that score well below benchmark are given a score level of Intensive Support. These scores give schools information about whether or not a student is on track for grade-level reading success so that those who do not meet the goals can be identified for various degrees of interventions.

*DIBELS Next* results within this report are based on this assessment given to students in the fall 2015. The *DIBELS Next* composite score is computed based on the skills expected of the student and for the assessment period and grade level. Figure 1 displays the distribution of students by performance level and grade for fall 2015. Across the four grades (K-3<sup>rd</sup>), 62.9% of the 176,117 *DIBELS Next*-assessed Louisiana students were considered Core (benchmark), representing a slight increase over 2015 fall results; 13.4% showed a need for Strategic support/intervention, and 23.8% suggested a need for Intensive support/intervention. Second grade again had the highest percent of students on scoring Core, whereas, again, intervention was most needed in kindergarten.

Table 1 summarizes the fall 2013, 2014, and 2015 results of the *DIBELS Next* assessment for Kindergarten through 3<sup>rd</sup> graders.

### Assessing Students' Reading Abilities Using Alternate Reading Assessments

Through the LDOE's waiver process, Louisiana allowed districts and charters to use an alternate assessment in place of *DIBELS Next* as the standard reading screener for Kindergarten through 3<sup>rd</sup> grade. Per state law, charter schools were not required to administer *DIBELS* or an alternate assessment. The districts below were granted waivers and administered an alternate assessment:

## Reading Results for Districts and Schools

The data presented in Table 3 represent the fall 2015 *DIBELS Next* results at the district and school level. The composite score percentage on each benchmark by grade level is shown. Data for districts and schools that administered an approved alternate assessment to *DIBELS Next* are presented in Tables 3 through 17.

## Data Suppression

The Louisiana Department of Education has modified and/or suppressed data reported to protect the privacy of students in compliance with the Family Educational Rights and Privacy Act (FERPA) codified at 20 U.S.C. 1232g. The strategies used to protect privacy vary and may include rounding or other techniques but do not substantially affect the general usefulness of the data. Because of the privacy protections, numerical and percentage totals may not add precisely to the sum of the row or column to which the total refers. ~'s are used for all percentages where the totals test takers in a particular grade and site are fewer than 10.<sup>1</sup>

---

<sup>1</sup> Specifically, for this report:

- Percentages greater than 95 and lower than 5 are replaced by >95% and <5%, respectively.
- ≥ plus a percentage indicates equal to or great than that percentage but less than the next highest tens (e.g., ≥80% is at least 80% but less than 90%).
- <10% indicates less than 10% but equal to or greater than 5%.
- After the above rules are followed, when a specific percentage less than 5 could still be derived, one or both of the other rows is suppressed.
- ~'s are used for all percentages where the totals test takers in a particular grade and site are fewer than 10.

## Alternate Assessment Results

Districts that were approved for a waiver from administering *DIBELS Next* submitted their alternate assessment data to the LDOE during fall 2015. The tables below include district, school, and grade-specific percentages of students classified by benchmark/performance level (as determined by each alternate assessment) for fall 2015 for all districts that utilized an alternate assessment.
