Executive Summary

Louisiana Law ([R.S. 17:182](#)) and BESE policy require the administration of a literacy screener not later than thirty days after the beginning of each school year in the early elementary grades.

This requirement aligns with the [research](#) that shows the years between Kindergarten and third grade are vital for creating the foundation for later school success. The [key skills](#) students develop one year must be built upon and reinforced the next. Furthermore, for students to sustain or exceed gains made each year, they must continue to receive high-quality teaching in subsequent years.

School systems have been working hard on many fronts to improve the quality of education for K-2 students. Yet, despite these collective efforts, many young children in Louisiana still lack access to a high-quality continuum of learning that could make a difference in positive, long term achievement outcomes. In fact, trends in LEAP results show fewer than 50 percent of third graders achieve mastery in reading or math. This picture is even more troubling for our most vulnerable youth.

These findings suggest that the curriculum and instruction students receive in the early grades may not be sufficient to carry them into the later grades where rich vocabulary, a broad base of knowledge, and deep understanding of key skills become ever more critical.

K-2 Literacy Screening Results

Literacy screening is a brief assessment of a particular skill or ability that is highly predictive of a later outcome. In Louisiana, teachers screen children in the fall, as required by law, for the following skills:

Kindergarten: **Initial Sound Fluency**

First Grade: **Word Identification Fluency**

Second Grade: **Oral Reading Fluency**

School systems can choose from [a list of approved screening assessments](#), which have been piloted in Louisiana and are nationally recognized.

Results over the past few years, including the most current report that follows, show fairly consistently and universally that, on average, 55-60% of K-2 students perform on or above benchmark (i.e., grade level) on screening measures. These results show a disconnect with the percent of students performing mastery on the third grade ELA LEAP.

This could be for various reasons, two specifically.

First, teachers could be inadvertently or intentionally inflating the screening scores of their children, indicating a need to 1) increase training and support to ensure that assessments are being

administered correctly, and 2) conduct random audits of the administration of the assessment to ensure accuracy in reporting.

Second, teachers and schools may mistakenly conclude that intense instruction on the skill measured by the screening tool (e.g., ORF) will result in improved overall reading ability. While that may be the case for students with deficits in the specific skill, our findings demonstrate that while performance on a single skill can be improved, this does not necessarily translate into gains in overall reading ability in third grade and beyond.

Vision for K-2 Instruction

An unintended consequence of the K-2 literacy screening assessments is that a great majority of our primary school teachers prioritize reading as the act of looking at a string of letters in a writing text and decoding these letters into sounds. This view of reading misses the extent to which a child's ability to interact with the words on a page demands engagement with a text's meaning as well as its individual words.

Math instruction in our state sees similar challenges. While top quality curriculum has helped improve the teaching of math in K-2 classrooms overall statewide, observations reveal far too many children are still engaged in rote activities that provide them with no deeper sense of how mathematics works.

For both reading and math, the instructional landscape in the primary grades must improve.

The Department's vision for K-2 is to make sure is to every child experiences high-quality instruction to develop deep understanding of key literacy and math skills needed to achieve mastery on state assessments in third grade and beyond.

Achieving this vision will require implementers at all levels -- from site and system leaders to classroom teachers -- to embrace **three** practices that support a consistent, coherent approach to children's education that provides continuous, enhanced learning opportunities, for our K-2 learners.

These practices, explained in depth [here](#), include:

1. High-quality **curricula**
2. Meaningful **assessment** methods, including early and accurate identification
3. Content-specific **professional development**

Introduction

The 2017-2018 school year is the seventh year in which the Louisiana Department of Education (LDOE) implemented the statewide use of *Dynamic Indicators of Basic Early Literacy Skills (DIBELS) Next* as a standardized reading screener for Kindergarten through third grade. Please note two recent key shifts:

- This was the second year that schools were asked to report particular measures (essentially subtests) that assessed the most important subset of early literacy skills for each grade level (rather than the overall “composite” scores as was the case in prior years) as follows: "initial sound fluency" for Kindergarten, "nonsense word fluency" for first grade, "oral reading fluency" for second grade, and "retell ability" for third grade.
- Second, schools were allowed to administer alternate assessments pre-approved by the state (see figure directly below). Districts could also apply for a waiver for approval to use an assessment not on the pre-approved list; however, none did so for the present school year.

GRADE	ASSESSMENT	SUBTEST NAME
Kindergarten	DIBELS Next	DIBELS Next First Sound Fluency
	Fountas & Pinnell	Fountas & Pinnell Initial Sounds
	iSTEOP	iSTEOP Initial Sound Fluency

STEP	Third	27.7%	72.3%	639

Assessing Students’ Reading Abilities Using *Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)*

The *Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)* is a set of standardized, individually-administered measures for assessing the acquisition of early literacy skills from Kindergarten through third grade. These are brief fluency measures designed to regularly monitor the development of early literacy and early reading skills. The critical skills necessary for successful beginning reading include phonemic awareness, phonics, fluency, vocabulary, and comprehension. The *DIBELS Next* benchmarking assessment measures assess students on four of these five critical skills—all of the critical skills listed above other than vocabulary. The *DIBELS Next* test provides teachers with information about student reading and how well the student is progressing on a particular early reading skill.

The results of *DIBELS Next* are reported based on a student’s level of skill attainment towards the benchmark goals. These empirically-derived benchmark goals are criterion-referenced target scores that represent adequate reading progress. They are based on research that examines the predictive validity of a score when compared to later *DIBELS Next* measures and external assessments. Consequently, attainment of a benchmark goal indicates a student is likely to achieve the next *DIBELS Next* benchmark goal in future *DIBELS Next* assessments and other important reading outcomes. As this pertains to the achievement levels, it is likely that a student who receives a score level of Core support (synonymous with “On/Above” level in the present report), which indicates the student is at or above the benchmark goal, is expected to achieve satisfactory reading outcomes in the future if the student receives research-based, core classroom instruction. Students who score Below benchmark are determined to be at risk of remaining and falling further behind in literacy and school without being provided interventions of various degrees.

DIBELS Next results within this report are based on the particular measure given to students in the fall 2017 depending on their grade level. Each measure assesses the skills expected of the student at the assessment period (specifically, at the *beginning* of the school year) and at a particular grade level.

Statewide results are included in Table 2, which summarizes the latest three years of fall *DIBELS Next* results for Kindergarten through third graders. Across the four reported grades, 59.5% (69.2% last year) of the 148,188 *DIBELS Next*-assessed Louisiana students were considered “On/Above” level, (synonymous with “Core” or “at benchmark”). Participation decreased from 165,769 last year as more schools chose to administer alternate assessments.

As in recent years, results showed that intervention is most needed in Kindergarten. Moreover, Kindergarten results showed by a substantial decrease in on-level students with a 3.7 percentage point decrease compared to last year (2016). An even larger decrease—nearly 7 percentage points—was as seen in performance of first graders. Only second graders showed an increase (approximately 1.5 percentage points), which should be expected given this group’s relatively strong performance as first graders last year, although this is not a set cohort (yet doubtlessly most 2017 *DIBELS*-tested second graders were also 2016 *DIBELS*-tested first graders). Third graders showed a decrease of just over 1 percentage point.

Table 2. Percentage of Fall 2015, 2016, and 2017 *DIBELS Next* Testers by Performance Level*

Grade	On/Above			Below			Totals		
	2015	2016*	2017	2015	2016*	2017	2015	2016*	2017
K	56.0%	54.6%	50.9%	44.0%	45.4%	49.1%	44,124	42,401	39,657
1	64.2%	67.0%	60.7%	35.8%	33.0%	39.3%	47,557	42,962	38,945
2	67.7%	58.0%	59.4%	32.3%	42.0%	40.6%	46,593	47,098	42,097
3	63.3%	71.7%	70.5%	36.7%	28.3%	29.5%	37,813	33,035	27,489
All	62.9%	62.2%	59.5%	37.1%	37.8%	40.5%	176,087	167,512	148,188

*Note: 2016 was the first year that districts were required to report a specific measure (subtest) that the LDOE determined to be most appropriate for each grade level rather than a composite score. Therefore, although results are expected to approximate those of prior years, longitudinal comparisons with 2015 and earlier are unreliable.

Assessing Students' Reading Abilities Using Alternate Reading Assessments

Districts and charters were again able to use an alternate assessment in place of *DIBELS Next* as the standard reading screener for Kindergarten through third grade. The districts and charter groups below administered a pre-approved alternate assessment.

Table 5. Percentage of Students by Performance Level, District, and School for Kindergarten through Third Grade, Fall 2016

Note that a 3-digit *Local Education Authority (LEA)/Site Code* (the first column) designates a district or charter group, whereas a 6-digit *LEA/Site Code* designates a school. An “NA” value indicates there were no testers in that grade at the school.

Data Suppression/Privacy

The Louisiana Department of Education has modified and/or suppressed data reported to protect the privacy of students in compliance with the Family Educational Rights and Privacy Act (FERPA) codified at 20 U.S.C. 1232g. The strategies used to protect privacy vary and may include rounding or other techniques but do not substantially affect the general usefulness of the data. Because of the privacy protections, numerical and percentage totals may not add precisely to the sum of the row or column to which the total refers. The symbol ~ is used for all percentages where the totals test takers in a particular grade and site are fewer than 10, and percentages greater than 95% and lower than 5% are replaced by >95% and <5%, respectively.
