Executive Summary

Louisiana Law ([R.S. 17:182](#)) and BESE policy require the administration of a literacy screener not later than thirty days after the beginning of each school year in the early elementary grades.

This requirement aligns with [research](#) demonstrating the years between Kindergarten and third grade are vital for creating the foundation for later school success. The [key skills](#) students develop one year must be built upon and reinforced the next. Furthermore, for students to sustain or exceed gains made each year, they must continue to receive high-quality instruction in subsequent years.

School systems and child care centers have been working hard to improve the quality of education for young children. As an example, the number of sites providing children with care and instruction at levels shown to promote kindergarten readiness increased eight percent between the first and second years of the implementation of the [early childhood performance profiles](#). Yet, despite these efforts, many young children in Louisiana still lack access to a high-quality continuum of learning that could make a difference in positive, long-term achievement outcomes. Trends in LEAP results show fewer than half of third graders achieve mastery in reading.

These findings indicate that a stronger focus on birth through second grade is necessary to ensure that students arrive in third grade with the rich vocabulary, broad base of knowledge, and deep understanding of key skills needed to be successful.

Vision for Early Learning

The Department's vision for birth through third grade classrooms is to make sure that every child experiences:

- **High Quality Interactions and Instruction:** Educators who deliver research-based and age-appropriate instruction, resulting in positive student interactions that promote growth, development, and mastery of key skills.
- **Aligned Content:** High-quality content that is aligned to the state's standards, ensuring mastery of the necessary skills and knowledge at each age.
- **Data Driven Planning and Support:** Educators equipped with data to inform effective academic decisions for every child, including early and accurate identification of students in need of acceleration and intervention.

Achieving this vision requires the implementation of a statewide system of coherent and intentional solutions for all classrooms with birth through third grade classrooms.

These solutions include:

- **Early Childhood Quality and Access:** Louisiana will continue to its efforts to expand access to high-quality learning experiences for children birth to five through unified, local early learning networks that offer engaging care and educational experiences for children.
- **Early and Accurate Identification:** Louisiana will support school systems in building structures for early and accurate identification of students with developmental and learning

needs to ensure that they receive appropriate and effective supports, interventions and specialized services to accelerate their learning.

- **High Quality PK-2 Curriculum in Every Core Subject:** Louisiana will support school systems in implementing high-quality, standards-based curriculum across core subjects that uses content-rich materials to build a strong foundation of knowledge and skills to support young students' reading development and academic success.
- **K-2 Accountability:** Louisiana will develop and implement a K-2 accountability system that bridges the gap between its early childhood and 3-12 accountability systems that will (1) inform and focus educators through clear expectations for student outcomes; and (2) provide objective information about school and site quality to parents and other community stakeholders.
- **Social-Emotional Support and Behavioral Interventions:** Louisiana will support school systems in building multi-tiered systems of behavioral interventions and support that lead to an increase in social-emotional skills and a decrease in exclusionary discipline practices.
- **Teaching the Science of Reading:** Louisiana will provide practicing teachers and teacher candidates with research-based training on the science of reading and reading development that results in more effective reading instruction.

Fall 2018 K-3 Literacy Screening Results

Literacy screening is a brief assessment of a particular skill or ability that is typically predictive of a later outcome. In Louisiana, teachers screen children in the fall, as required by law, for the following skills:

Kindergarten: **First Sound Fluency**

First Grade: **Word Fluency**

Second Grade: **Oral Reading Fluency**

Third Grade: **Reading Comprehension**

School systems can choose from [a list of three screening assessments](#), which have been piloted in Louisiana and are nationally recognized. Approximately ninety percent of districts and charters administered DIBELS Next and eight percent administered STEEP. Only 20 schools statewide reported STEP data and all of these were charter schools. Results are reported in Table 4 and are grouped by sites using the same assessments. DIBELS results begin on page 13, STEEP on page 40, and STEP on page 46.

Results over the past couple of years show fairly consistently that, on average, around 60 percent of students in grades 1-2 perform on or above benchmark (i.e., grade level) on screening measures. These results show a disconnect with the percent of students performing mastery on the third grade ELA LEAP, which has been at least 15 percent lower.

Introduction

The 2018-2019 school year is the eighth year in which the Louisiana Department of Education (LDOE) implemented the use of Dynamic Indicators of Basic Early Literacy Skills (DIBELS) Next as a standardized reading screener for Kindergarten through third grade. This is the fourth year that districts and schools could choose to administer either STEEP or STEP in place of DIBELS. In Fall 2018, at least 85 percent of schools used DIBELS, approximately 10 percent used STEEP, and the remaining 5 percent used STEP.

In addition, it is important to note two recent key shifts:

- This was the second year that schools were asked to report particular measures (subtests) that assessed the most important subset of early literacy skills for each grade level (rather than the overall “composite” scores as was the case in prior years) as follows: "first sound fluency" for Kindergarten, "nonsense word fluency" for first grade, "oral reading fluency" for second grade, and "comprehension" for third grade.
- Second, this was the first year that schools implementing DIBELS Next administered the Daze subtest in third grade. The DIBELS Daze subtest was selected to replace the DIBELS Retell subtest for third graders to ensure a more objective measure. The DIBELS Retell subtest was considered subjective and, consequently, is no longer included as a measure in the newest edition of DIBELS.

GRADE	ASSESSMENT	SUBTEST NAME
Kindergarten	DIBELS Next	DIBELS Next First Sound Fluency
	STEEL	STEEL Initial Sound Fluency
	STEP	STEP Phonemic Awareness First Sounds
1st	DIBELS Next	DIBELS Next Nonsense Word Fluency-CLS
	STEEL	STEEL Nonsense Word Fluency
	STEP	STEP Reading Record
2 nd	DIBELS Next	DIBELS Next Oral Reading Fluency-Words Correct
	STEEL	STEEL Oral Reading Fluency
	STEP	STEP Oral Reading Fluency
3 rd	DIBELS Next	DIBELS Next Daze
	STEEL	STEEL Advanced Literacy (CBT)
	STEP	STEP Retell

Overall Results

Figure 1 displays the distribution of students by performance level and grade for fall 2018.

Figure 1. Statewide Performance Level by Grade for All Literacy Assessments Combined, Fall 2018

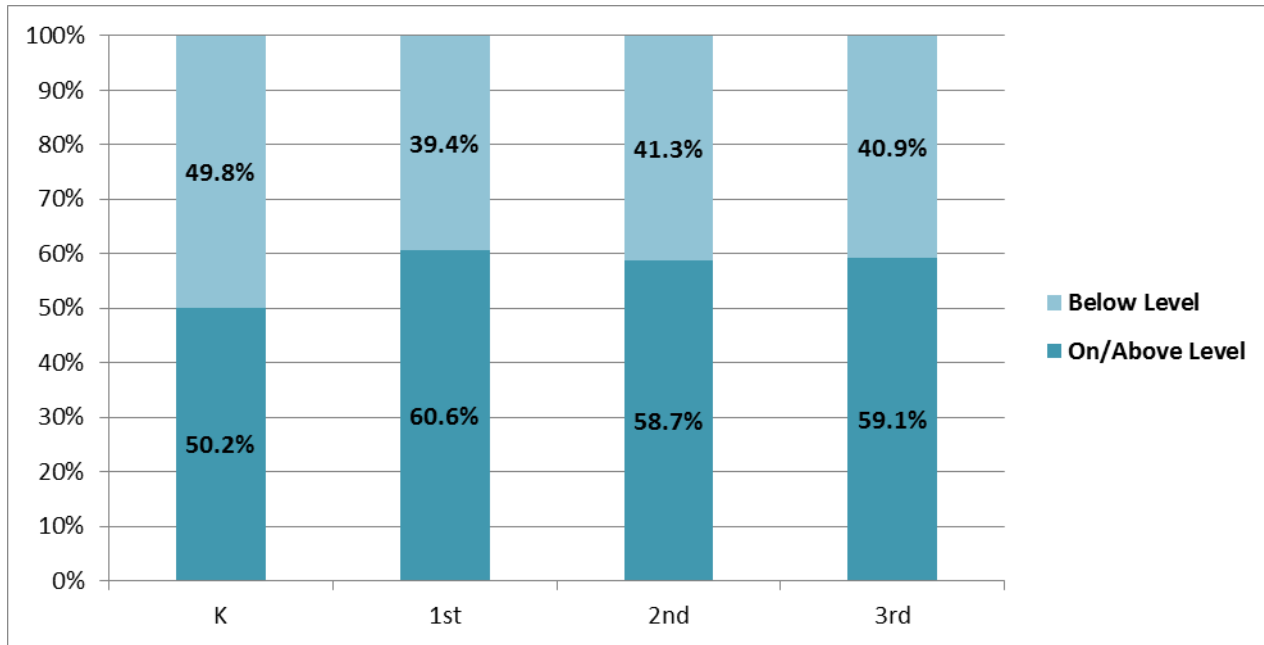

Table 1 below displays the disaggregation of grade-level performance further by assessment for all literacy assessments given in Kindergarten through third grade. If grade-level data are not included for an assessment, it is because that assessment was not administered in the state for that grade.

Table 1. Percentage of All Fall 2018 Statewide Testers by Performance Level and Assessment

Assessment Name	Grade	On/Above Level	Below Level	Total Tested
DIBELS	Kindergarten	51.6%	48.4%	39,336
DIBELS	First	58.4%	41.6%	40,704
DIBELS	Second	57.8%	42.2%	39,480
DIBELS	Third	57.4%	42.6%	39,251
STEEP	Kindergarten	44.7%	55.3%	9,531
STEEP	First	74.4%	25.6%	10,256
STEEP	Second	67.0%	33.0%	9,794
STEEP	Third	64.5%	35.5%	9,264
STEP	Kindergarten	48.3%	51.7%	1,465
STEP	First	21.6%	78.4%	1,332
STEP	Second	22.9%	77.1%	1,324
STEP	Third	68.0%	32.0%	1,939

Assessing Students' Reading Abilities Using *Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next)*

The Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next) is a set of standardized, individually-administered measures for assessing the acquisition of early literacy skills from Kindergarten through third grade. These are brief fluency measures designed to regularly monitor the development of early literacy and early reading skills. The critical skills necessary for successful beginning reading include phonemic awareness, phonics, fluency, vocabulary, and comprehension. The DIBELS Next benchmarking assessment measures assess students on four of these five critical skills—all of the critical skills listed above other than vocabulary. The DIBELS Next test provides teachers with information about student reading and how well the student is progressing on a particular early reading skill.

The results of DIBELS Next are reported based on a student's level of skill attainment towards the benchmark goals. These empirically-derived benchmark goals are criterion-referenced target scores that represent adequate reading progress. They are based on research that examines the predictive validity of a score when compared to later DIBELS Next measures and external assessments. Consequently, attainment of a benchmark goal indicates a student is likely to achieve the next DIBELS Next benchmark goal in future DIBELS Next assessments and other important reading outcomes. As this pertains to the achievement levels, it is likely that a student who receives a score level of Core support (synonymous with "On/Above" level in the present report), which indicates the student is at or above the benchmark goal, is expected to achieve satisfactory reading outcomes in the future if the student receives research-based, core classroom instruction. Students who score below benchmark are determined to be at risk of remaining and falling further behind in literacy and school without being provided interventions of various degrees.

DIBELS Next results within this report are based on the particular measure given to students in the fall of 2018 depending on their grade level. Each measure assesses the skills expected of the student at the assessment period (specifically, at the beginning of the school year) and at a particular grade level.

Statewide results are included in Table 2, which summarizes the latest three years of fall DIBELS Next results for Kindergarten through third graders. Across the four reported grades, 57.2 percent (59.5 percent last year) of the 203,676 DIBELS Next-assessed Louisiana students were considered "On/Above" level, (synonymous with "Core" or "at benchmark"). Participation increased from 148,188 last year. This is partially due to the way data were collected in 2018. The structures and format for districts and charters to submit data were enhanced to ensure the scores that they reported were error-free and could be used. Additionally, charter participation increased in 2018.

Kindergarten results showed 0.7 decrease in on-level students compared to last year (2017). Performance for first graders remained relatively constant and second graders showed a slight decrease (0.7 percentage points). However, a large decrease—11.4 percentage points—was seen in performance of third graders. This is likely due to the change in the subtest that was administered. The Daze subtest administered to third graders in Fall 2018 is considered less subjective and more rigorous than the Retell subtest administered in Fall 2017. In fact, the new edition of DIBELS (2019)

will no longer include the Retell subtest for these reasons. Decreases could also be due to the large increase in the number of students assessed in Fall 2018 compared to Fall 2017.

Table 2. Percentage of Fall 2016, 2017, and 2018 DIBELS Next Testers by Performance Level

Grade	On/Above			Below			Totals

Table 4. Percentage of Students by Performance Level, District, and School for Kindergarten through Third Grade, Fall 2018

Note that a 3-digit *Local Education Authority (LEA)/Site Code* (the first column) designates a district or charter group, whereas a 6-digit *LEA/Site Code* designates a school. An “NA” value indicates there were no testers in that grade at the school.

Data Suppression/Privacy

The Louisiana Department of Education has modified and/or suppressed data reported to protect the privacy of students in compliance with the Family Educational Rights and Privacy Act (FERPA) codified at 20 U.S.C. 1232g. The strategies used to protect privacy vary and may include rounding or other techniques but do not substantially affect the general usefulness of the data. Because of the privacy protections, numerical and percentage totals may not add precisely to the sum of the row or column to which the total refers. The symbol ~ is used for all percentages where the totals test takers in a particular grade and site are fewer than 10, and percentages greater than 95 percent and lower than 5 percent are replaced by >95% and <5%, respectively.

Gifted Screening Summary

Act 688, recently passed, adds that students who score above grade level on the literacy screener shall be considered for gifted evaluation. In Fall 2018, LDOE administered a survey requesting information from school systems on the number of children who were referred for gifted evaluation as a result of their screening results. The results of the survey are presented in Table 7. Forty-seven traditional system systems and 30 charters responded to the survey. **Overall, results indicate that around 4,000 non-gifted students were referred for additional gifted screening and approximately 900 of those were referred for gifted evaluation.** Results were relatively consistent across grades with slightly more second and third graders referred for screening and evaluation than first graders.

Table 6. Gifted Screening Data

Grade	Number of students who scored <i>Above Average</i> on the literacy screener that were referred for additional Gifted Screening	Number of students who scored <i>Above Average</i> on the literacy screener and received additional Gifted Screening that were referred for Gifted Evaluation
First	1114	199
Second	1451	390
Third	1483	301
Statewide	4048	890

Note: Gifted screening and evaluation procedures in Kindergarten are based on intellectual abilities and performance on a reading and math achievement test standardized at the first grade level per state regulations.
