## Executive Summary

Louisiana Law ([R.S. 17:182](#)) and a policy established by the Louisiana Board of Elementary and Secondary Education (BESE) require that school systems administer a literacy screener not later than thirty days after the beginning of each school year to all students in kindergarten through grade 3. This requirement aligns with [research](#) demonstrating that annual screening is vital for ensuring that all students are on the right track to become proficient readers by the end of third grade.

School systems can choose among [four screening assessments](#). The screening assessments measure a particular skill or skills that are typically predictive of later reading success. The skills build upon each other from one grade level to the next and are appropriately matched to children's ages and developmental stages. The skills are also linked to standards children should be able to master at the beginning of each school year. The key skills measured at each grade level follow.

Kindergarten: **Phonemic Awareness**

First Grade: **Basic Phonics**

Second Grade: **Oral Reading Fluency**

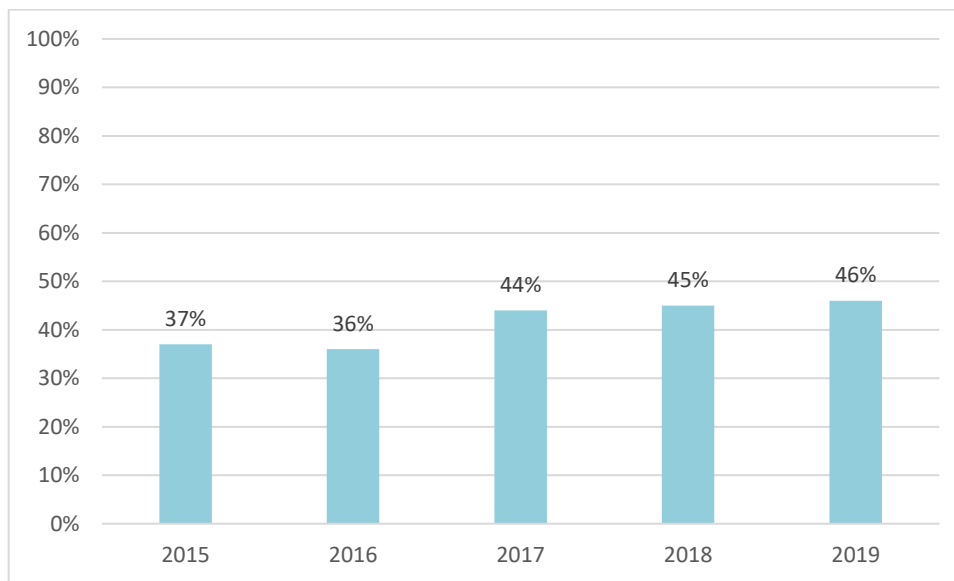

Third Grade: **Reading Comprehension**

Students' scores at each grade level are reported as either "On or Above Benchmark" or "Below Benchmark." Students who scored "Below Benchmark" are considered "at risk" for reading difficulties according to authors of the assessments. Fall 2019 results revealed that 43.3% of kindergarten students, 54.2% of first graders, 55.9% of second graders, and 52.9% of third graders scored "On or Above Benchmark" for the measured skills.

Overall, literacy screening results over the past three years have declined slightly (see Table 3). This means fewer children are reading on grade level and more children are identified as "at risk" for reading failure each year. The decline in scores from 2018 to 2019 is, in part, as result of the transition to *DIBELS 8th*. In 2019, 30 school systems administered *DIBELS 8th* for the first time, representing 11 percent of all scores. *DIBELS 8th* scores were, on average, substantially lower than the *DIBELS Next* scores across all grade levels (see Table 2).

The Department is investigating possible reasons for lower scores on *DIBELS 8th* assessment, as compared to the prior version, *DIBELS Next*. Additionally, to eliminate the challenges that exist with using multiple assessments to measure statewide progress, the Department is exploring the option of moving to one assessment over the next couple of years based on stakeholder input. In sum, literacy screener results identify many children as "at risk" for reading problems. The literacy screener results are mirrored in Louisiana's third grade ELA LEAP outcomes. Though LEAP scores have increased over the last three years, still fewer than half of all third graders achieve mastery in reading. In Spring 2019, 46 percent of third grade students achieved mastery (see Figure 1).

**Figure 1. Percent of 3<sup>rd</sup> Grade ELA Scoring Mastery and Above, Spring 2015 to 2019**

These findings call for a new set of actions focused on improving literacy in the early years. To bolster this effort, Louisiana established the Early Literacy Commission through Louisiana Senate Resolution 182 and [Louisiana House Resolution 222](#). To achieve Louisiana’s vision of reading proficiency for all children, in Fall 2019, the Commission developed a long-term plan to improve early literacy in Louisiana with short-term and mid-term milestones along the way. The [Early Literacy Commission Report](#) describes the plan, including nine goals and 17 policy recommendations to achieve these goals.

### Introduction

The 2019-2020 school year is the ninth year in which the Louisiana Department of Education (LDOE) implemented the use of the *Dynamic Indicators of Basic Early Literacy Skills (DIBELS)* assessment, called *DIBELS Next*, as a standardized reading screener for Kindergarten through third grade. In addition to *DIBELS Next*, this is the first year school systems could choose to use a newer version of *DIBELS*, called *DIBELS 8th*. Moreover, this is the fifth year that school systems could choose to administer either the *System to Enhance Educational Progress (STEEP)* or the *Strategic Teaching and Evaluation of Progress (STEP)* assessment in place of *DIBELS*. In Fall 2019, approximately 90 percent of schools used *DIBELS*, approximately 8 percent used *STEEP*, and the remaining 2 percent used *STEP*.

In addition, it is important to note two recent shifts:

- This was the third year that schools were asked to report particular measures (subtests) that assessed the most important subset of early literacy skills for each grade level (rather than the overall “composite” scores as was the case in prior years) as follows: "first sound fluency" for Kindergarten, "nonsense word fluency" for first grade, "oral reading fluency" for second grade, and "comprehension" for third grade.
- This was the second year that schools implementing *DIBELS Next* administered the Daze subtest in third grade. The Daze subtest was selected to replace the Retell subtest for third graders to ensure a more objective measure. The Retell subtest was considered subjective and, consequently, is no longer included as a measure in the newest edition of *DIBELS*.

Table 1 below lists the name of the subtest administered at each grade level for each of the four assessment options.

**Table 1. Subtests Administered by Grade for DIBELS 8<sup>th</sup>, DIBELS Next, STEEP and STEP**

GRADE	ASSESSMENT	SUBTEST NAME
Kindergarten	DIBELS 8 <sup>th</sup>	DIBELS 8th Phonemic Segmentation Fluency
	DIBELS Next	DIBELS Next First Sound Fluency
	STEEP	STEEP Initial Sound Fluency
	STEP	STEP Phonemic Awareness First Sounds
1st	DIBELS 8 <sup>th</sup>	DIBELS 8th Nonsense Word Fluency-Correct Letter Sounds
	DIBELS Next	DIBELS Next Nonsense Word Fluency- Correct Letter Sounds
	STEEP	STEEP Nonsense Word Fluency
	STEP	STEP Reading Record

***Assessing Students' Reading Abilities Using Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next and DIBELS 8<sup>th</sup>), System to Enhance Educational Progress (STEEP), and Strategic Teaching and Evaluation of Progress (STEP)***

*The Dynamic Indicators of Basic Early Literacy Skills (DIBELS Next and DIBELS 8th), System to Enhance Educational Progress (STEEP), and Strategic Teaching and Evaluation of Progress (STEP)* are a set of standardized, individually-administered measures for assessing the acquisition of early literacy skills from kindergarten through third grade. These are brief fluency measures designed to regularly monitor the development of early reading skills. The critical skills necessary for successful beginning reading include phonemic awareness, phonics, fluency, vocabulary, and comprehension. The four benchmarking assessment measures assess students on four of these five critical skills directly—all of the critical skills listed above other than vocabulary, which is measured indirectly through comprehension. The assessments provide teachers with information about student reading and how well the student is progressing on a particular early reading skill.

The results are reported based on a student's level of skill attainment towards the benchmark goals. These empirically-derived benchmark goals are criterion-referenced target scores that represent adequate reading progress. They are based on research that examines the predictive validity of a score when compared to later measures and external assessments. Consequently, attainment of a benchmark goal indicates a student is likely to achieve the next benchmark goal and other important reading outcomes. Students who score below benchmark are determined to be at risk of remaining and falling further behind in literacy and school without being provided interventions of various degrees.

Results within this report are based on the particular measure given to students in the fall of 2019 depending on their grade level. Each measure assesses the skills expected of the student at the assessment period (specifically, at the beginning of the school year) and at a particular grade level.

Statewide results are included in Table 3, which summarizes the latest three years of fall DIBELS Next results for Kindergarten through third graders. Across the four reported grades, 51.5 percent (57.2 percent last year) of the 207,656 assessed Louisiana students were considered "On/Above" level, (synonymous with "at benchmark"). Participation increased from 203,676 last year. Data systems were enhanced with error checks to ensure accuracy and reliability of scores reported by school systems. Additional data quality measures were put in place to increase reporting which included data submission review and strategic outreach to school system staff to ensure data accuracy and completeness.

Overall results showed a 5.7 percentage point decrease in on/above-level students compared to last year (2018). Similar decreases were noted amongst all grade level results. Kindergarten, first and third graders collectively showed over 6% decreases and second graders slightly lower with a 2.8% decrease.

**Table 3. Percentage of Fall 2017, 2018, and 2019 Testers by Performance Level**

Grade	On/Above			Below			Totals		
	2017	2018	2019	2017	2018	2019	2017	2018	2019

## Assessment Results for School Systems and Schools

### Percentage of Students by Performance Level, School System, and School for Kindergarten through Third Grade, Fall 2019

See Table 9 for a list of school systems and schools whose data are not reported.

#### Data Suppression/Privacy

The Louisiana Department of Education has modified and/or suppressed data reported to protect the privacy of students in compliance with the Family Educational Rights and Privacy Act (FERPA) codified at 20 U.S.C. 1232g. The strategies used to protect privacy vary and may include rounding or other techniques but do not substantially affect the general usefulness of the data. Because of the privacy protections, numerical and percentage totals may not add precisely to the sum of the row or column to which the total refers. The symbol ~ is used for all percentages where the totals test takers in a particular grade and site are fewer than 10, and percentages greater than 95 percent and lower than 5 percent are replaced by >95% and <5%, respectively. An “NA” value indicates there were no testers in that grade at the school. An “NR” value indicates that results cannot be reported.

**Table 9. School Systems/Schools with Kindergarten through Third Grade Enrollment that Did Not Submit Usable Data**

The school systems/schools below were excluded from the Fall 2019 analyses due to administering the incorrect assessment for third grade.

School System Code	School System Name
028	Lafayette Parish (3 <sup>rd</sup> grade only)
049	St. Landry Parish (3 <sup>rd</sup> grade only)
026050	Harold Keller Elementary School (3 <sup>rd</sup> grade only)
W7A001	Louisiana Key Academy (3 <sup>rd</sup> grade only)

### Gifted Screening Summary

Act 688, passed by the state legislature in summer 2018, adds that students who score above grade level on the literacy screener shall be considered for gifted evaluation. In Fall 2019, LDOE administered a survey requesting information from school systems on the number of children who were referred for gifted evaluation as a result of their screening results. The results of the survey are presented in Table 10. Sixty-three traditional system systems and 59 charters (90 percent of all school systems/charter schools) responded to the survey. **Overall, results indicate that 4,639 non-gifted students were referred for additional gifted screening and approximately 700 of those were referred for gifted evaluation.**

**Table 10. Gifted Screening Data**

Grade	Number of students who scored <i>Above Average</i> on the literacy screener that were referred for additional <b>Gifted Screening</b>	Number of students who scored <i>Above Average</i> on the literacy screener and received additional Gifted Screening that were referred for <b>Gifted Evaluation</b>
First	805	162
Second	2109	296
Third	1725	240
Statewide	4639	698

**Note:** Gifted screening and evaluation procedures in Kindergarten are based on intellectual abilities and performance on a reading and math achievement test standardized at the first grade level per state regulations.
