Title and Driving Question/ Challenge (1.000, 9.1%) <u>InTASC</u> 2017 5b	A title is included. Driving question/ challenge is provided.	A succinct title is included. Driving question/challenge aligns to LA/NGSS.	Title is included, is succinct, and describes the cycle of instruction. Driving question/challenge aligns to LA /NGSS standards and is open-ended.	Title is included, is succinct, and thoroughly describes the cycle of instruction. Driving question/ challenge aligns to LA/NGSS standards, is open-ended, and refers to a real-world problem or challenge authentic to the student(s).
Alignment with other Subjects /Disciplines (1.000, 9.1%) <u>InTASC</u> 2017 8	The candidate states that the PBL cycle of instruction aligns to one other subject.	The candidate explains how the PBL cycle of instruction aligns to one other subject.	The candidate correctly explains how the PBL cycle of instruction aligns to one other subject.	Candidate correctly explains how the PBL cycle of instruction aligns to two or more other subjects. (10)
NGSS/LA/ Standards (1.000, 9.1%) <u>InTASC</u> 2017 6r	One LA/NGSS or NSTA elementary level science standard is included.	One LA/NGSS or NSTA elementary level science standard is included. One CCC is stated that fully aligns with the cycle of instruction.	One LA/NGSS elementary level science standard is included that adequately aligns with the cycle of instruction. One CCC is stated that fully aligns with the cycle of instruction.	Two or more LA/NGSS elementary level science standards are stated that fully align with the cycle of instruction. One or more CCCs are stated that fully align with the cycle of instruction.

	Limited Proficiency (1-3 pts.)	Developing Proficiency (2.000 pts)	Proficient (4-5 pts.)	Exemplary
Contextual Factors: School Student Body (1.00, 9.1%) InTASC 2017 2	Candidate includes student body contextual factors.	NA	Contextual factors of the school's student body are present to include % enrollment, % gender, % ethnicity, % minority, % ELL proficient, % ELL limited, % economically disadvantaged. 5	NA
Contextual Factors: Class InTASC 2017 2	Candidate includes contextual factors for one class population.	NA	Contextual factors of one class population are present to include % enrollment, % gender, % ethnicity, % minority, % ELL proficient, % ELL limited, % economically disadvantaged. 5	NA
Teacher/Principal Demographics InTASC 2017 2	Candidate provides demographic elements for teacher and principal.	NA	Candidate includes gender, ethnicity, ELL proficiency level, and economically disadvantaged status for both one teacher and the principal. 5	NA
Narrative Answers to 3 Questions InTASC 2017 2	Candidate provides answers for questions pertaining to the impact of teacher and principal demographics on students.	Candidate provides narrative answers to questions that pertain to the impact of teacher and principal demographics on students.	Candidate provides narrative answers to all three questions pertaining to the impact of teacher and principal demographics on students with evidence-based references.	Candidate provides reflective narrative answers to all three questions pertaining to the impact of teacher and principal demographics on students with evidence-based references. 5

Data Analysis Evaluating (1.000, 9.1%) <u>InTASC</u> 2017 9.I	Candidate includes a data analysis of student performance.	Candidate includes: (1) A list of students' grades/ performance levels taken from the pre/post summative assessment (fictional). (2) A graph illustrating student performance (fictional grades) on the pre/post summative assessment. (3) A table to report mean, median, mode, and max and min scores for the class on a summative assessment. (4) Textual analysis of one student's pre/post performance. (5) A narrative explanation of class performance across all assessments, including the self-assessment. (6) A reflection on whether or not students met the learning goals and how the lesson might be improved.	Candidate includes: (1) A list of 25 students' grades/ performance levels taken from the pre/post summative assessment (fictional). (2) A labeled graph (line or bar) illustrating student performance (fictional grades) on the pre- vs. post- summative assessment. (3) A labeled table to report mean, median, mode, and max and min scores for the class on same or different summative measure is present. Calculations are correct. (4) Textual analysis of one student's pre/post performance and includes whether or not the student met the learning goals. (5) Narrative explanation of class performance across all assessments, including the self-assessment. (6) A reflection on whether or not students met the learning goals and how the lesson might be improved is included	Candidate includes: (1) A list of 25 students' grades/performance levels taken from the pre/post summative assessment (fictional) (2) A computer-generated, correctly labeled graph (line or bar) that illustrates student performance (fictional grades) on the pre- vs. the post-summative assessment. (3) A correctly labeled table to report mean, median, mode, and max and min scores for the class on same or another summative assessment. Calculations are correct. (4) Thorough textual analysis of one fictional student's pre/post performance and indication of student success with prescribed learning goals. (5) A thorough narrative explanation of performance of class across summative, formative, and self-assessment

			along with specific scaffolding measures.	measures. (6) A reflection on whether students met the learning goals and how the lesson might be improved, which includes specific scaffolding measures for a variety of identified special needs.
